Profile

Motivated and detail-oriented Front-End Developer with good knowledge of HTML, CSS, JavaScript, React, and Figma. I'd like to bring input into dynamic teams for the creation of compelling and responsive user interfaces. Eager to learn more and bring ideas to life in a creative way on digital platforms.

Projects

Chatty Chat [🔗](#)

- Developed a real-time chat application using React.js, Tailwind CSS, and Firebase. The application features Google authentication, real-time messaging with dynamic timestamps, and a responsive user interface.

E-learning Website [🔗](#)

- Developed a fully functional e-learning site featuring courses listings, courses enrollment functionality, and user authentication using HTML, CSS, JavaScript, React and React bootstrap.

Todo List App

- Created a task management application allowing users to add, edit, and delete tasks with a simple and intuitive interface using HTML, CSS, JavaScript.

Quiz App

- Designed and implemented an interactive quiz application with multiple categories and dynamic scoring using HTML, CSS, JavaScript
